Utility Company		«TableStart:FirstMultiRate»«Utility»«TableEnd:FirstMultiRate» «TableStart:Utility»«utility_phone»» «website»«TableStart:Utility»«Address» «City» «State» «Zip» «TableEnd:Utility»		
Product Structure		Your product is a fixed rate product. This means that even if the market rate changes, your rate will remain the same as described above for the length of your Agreement. Your Rate includes the voluntary purchase of certified renewable energy certificates (RECs) to offset 100% of your usage. Your purchase supports and encourages further renewable energy production.		
Service Start Date and Billing		Liberty Power will make an enrollment request to the Utility on your behalf. Once the Utility accepts your enrollment request and reads your meter, your service will begin. You will receive written notice from the Utility confirming the switch of your electricity supply service to Liberty Power. Your switch to Liberty Power may not be reflected on your bill for up to two (2) billing cycles. There are no fees for switching to Liberty Power. Your electric Utility remains responsible for the delivery of power and energy to your service location and will continue to respond to any service calls and emergencies. Switching to a RES will not impact the reliability of your electric service.		
Right of Rescission		You may rescind (cancel without the incurrance of an early termination fee) this Agreement within three (3) business days from the date you signed your agreement.		
Early Termination Fee		Your termination of this Agreement prior to the expiration of the Term will result in an Early Termination Fee (ETF) equal to \$10 per month remaining in your agreement. Liberty Power will waive your ETF if you first contact us directly in order to cancel your service. If you cancel service prior to the expiration of your Agreement without first contacting Liberty Power the ETF will apply. The ETF will also be waived if you provide satisfactory documentation that you have moved outside of your current Utility's service territory.		
Renewal Terms		You will receive a reminder notice of your upcoming term expiration approximately 45 days in advance of the expiration. At the end of your Agreement we recommend you choose a new Liberty Power plan that meets your needs. If you take no action, your service will automatically continue with Liberty Power on a Rollover variable rate. The Terms and Conditions applicable to the Liberty Power Rollover Variable Plan will be made available to you via mail or electronically with the reminder notice.
